

THERMAC SPEED FRAMES

Thermac are very pleased to introduce our heavy duty speed frames into their ever growing stock profile.

The galvenised steel outer poles, roof and floor sections are very easily erected to form a heavy duty and solid structure. The frame is lightweight, portable and easy to be cleaned and stored.

The frames can be erected to form a single structure or part of a 3 part airlock or baglock. The frames can be provided in 1m or 750mm sizes.

THERMAC SPEED FRAMES

Width	1m or 750mm
Height	2m
Length	1m or 750mm
Weight	8kg (combined)
Material	Galvenised steel

Poles and frames can be purchased separately reducing the need to dispose of entire framing systems.

Frames can be erected in a matter of minutes with easy an easy to slot and rigid design.
