

Foam Machine 24 Litre

Electric Foam Machine to apply FoamShield as a textured coatings remover. Rugged, easy-clean stainless-steel construction.

This Foam Machine does not require a compressed air line to function, and has a handy 10 m power cable for a good-range of manoeuvrability around site.

When fed through this Foam Machine, FoamShield has a gel-like consistency. 1 litre of FoamShield can cover an area up to 5 m².

24 litre capacity tank.

Specifications:	
Material	Stainless Steel AISI 304
Dimensions: W, H, D (mm)	380, 840, 660
Power Supply	220 V – 50 Hz - 1 ph
